

# Artjom Plaunov

## Student/Teaching Assistant

I am currently pursuing a degree in Computer Science at Hunter College., and am looking for an internship to apply my educational grounding in a real-world environment. I am open to anything related to software development, web development, and any sort of network or server maintenance. I am also strongly interested in working in an environment where technology is used as a tool for public service, e.g., in the non-profit sector.

## SKILLS

C++

Python

C

Unix/Linux

Git

## WORK EXPERIENCE

### Undergraduate Teaching Assistant

#### Hunter College

09/2018 – Present

CS260 is an undergraduate computer architecture course at Hunter College which focuses on computer performance metrics, assembly language, and processor design.

##### Tasks

- Grade weekly homework assignments.
- Provide constructive feedback and notes to the course advisor.
- Tutor students who need help understanding core concepts.

### Intern/Canvasser

#### Riders Alliance

05/2012 – 05/2016

The Riders Alliance is a non-profit organization dedicated to building a coalition of subway and bus riders to pressure elected officials for more effective transit funding.

##### Responsibilities:

- Learned and implemented basic grass roots organizing tactics.
- Conducted research for campaigns: Attended city council meetings, analyzed data, interviewed people on the streets, etc.
- Collected 1,000 petitions to expand pre-tax transit benefits in New York (The proposed law was successfully passed in legislature).

## EDUCATION

### Computer Science Major

#### Hunter College

09/2014 – Present

3.6 GPA overall, and a 4.0 GPA in Computer Science courses

Courses(Completed and currently enrolled in)

- Algorithm Design and Analysis(CS235)
- Computer Theory(CS265)
- Agile Software Development(CS395)
- Operating Systems(CS340)

### Student

#### Bronx High School of Science

09/2010 – 06/2014

## PERSONAL PROJECTS

### App Development

Currently learning HTML/CSS/Javascript to develop the front-end for a simple app a friend and I are working on; the project is in its infancy but the plan is to create something with highly interactive and up to date weather data.

### Symbol Table in C

Programmed a hashed symbol table implementation in C(On my Github).
