Intermediate: Git & Github, Makefile Build Systems, Doctests for C++, Visual Studio Code, Thonny, Eclipse, Linux, iOS, Command Line/Terminal

Beginner: JavaScript, Python, HTML, CSS, Emacs

PROJECTS

Miwok App July 2018 – August 2018

Followed a Udacity course to create an app that translates Native America Miwok to English. The app was developed using Android Studio, Android XML, and Java and demonstrates usage of intents, object-oriented design, AudioManager and RecyclerView.

Phoneme April 2018 – May 2018

A class project that uses the CMU Pronunciation Dictionary to extract similarities between an input word and the words in the dictionary. These similarities include phoneme manipulation and phoneme comparison.

CONFERENCES ATTENDED

Samsung Next Panel February 2018

NY Tech MeetUp October 2017
